

## Outcomes from youth focus groups

One big takeaway: It makes a difference to students whether the important adults in their life are talking about mental health or not. They notice, and it matters.

Get input from: alternative schools, truly rural communities, LGBT youth, Native American youth

1. Subsequent online quantitative study
2. HOP for adolescents
3. Come up with something to help parents and teachers to know how to respond

Some suggested Questions for Subsequent Focus Groups:

High school students who have disclosed – outcome?

For friends – how would you handle it if someone disclosed to you?
